

PET FILM BANNER

owned exclusively by Media Art Advertising

POLYESTER FILM PET MATERIAL

Polyester (PET) film is the best quality on the printing market. This plastic film is durable and dimensionally stable (bi-oriented). Polyester has low water absorption and good chemical resistance. These properties remain constant over a wide range of temperatures and humidity levels.

The mechanical properties of polyester film make it a choice substrate for a variety of processing technologies, such as vacuum metalizing, coating and laminating. Polyester film also has great chemical resistance and is very difficult to tear which makes it an excellent choice for indoor and outdoor printing.

Environmental Testing 环境测试	
80°C 240 hours	Stable
>30°C 240hours	Stable
Thermal Cycling (-30°C to 70°C 10 times)	Stable

High Speed Printing 高速印刷

- Average print speed is 20 times faster than traditional inkjet photo printer.
平均打印速度较传统喷墨打印机快20倍

Environmental Protection 产生污染少

- No ink, no odour. 无墨水, 无异味

Low Cost 低成本

- Save time & labor, comprehensive cost is low. 节省时间, 节省人力, 整体成本低

High Precision Printing 高精度度

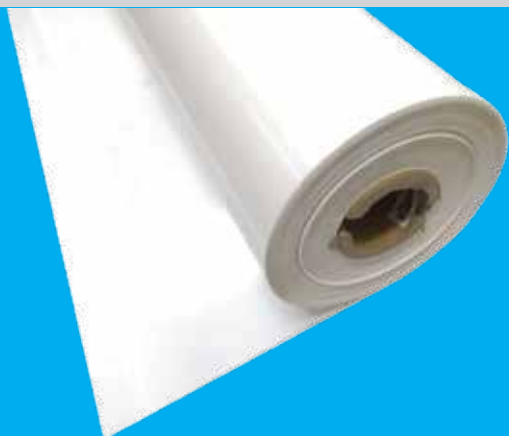

- No pass lines created when printing. The pictures are colorful. And it ensures the print effect as delicate as photos. 2 Year Color Consistency.
打印时不拖墨, 色泽鲜艳多彩, 打印效果细腻。2年色彩质量保证

Widespread Use 广泛应用

- It can be used widely in non-coated substrate, film, car sticker, paper, etc. 适用于非涂层基材, 胶片, 汽车贴纸, 纸张等

Excellent weather-resistance 耐候性

- Waterproof, sunscreen and friction resistance. 防水, 防晒和不易撕毁

THERMAL PRINTING

HIGH SPEED ENVIRONMENTLA PROTECTION

- » Outdoor Banner / Bunting
- » Indoor Bunting Standee
- » Poster

* FREE LAMINATION INCLUDED

Let Us COMPARE

- 01 Wrinkle-free
- 02 High Contrast And Durable
- 03 Easy To Install
